THREE GENERATIONS OF BOYDS

65 Years of Continuous Service to Our Customers, 1887-1952

J. H. H. BOYD
Grandfather of Boyd Bros.

F. C. BOYD
PRESIDENT
Father of Boyd Bros.

It is with great pleasure that we herewith present our catalog for season 1952. First of all, we want to extend greetings and best wishes for a prosperous year in 1952 and to thank each and every one of our customers for their patronage during the past and hope that we may have the pleasure of receiving your valued orders for the coming year.

Those who have known and bought from the "Boyd's" in the past, many for a long term of years, of course, need no introduction. To those unacquainted with us we are glad to give the following bit of information.

Back in the year 1887, J. H. H. Boyd, the founder of our business, father of F. C. Boyd and grandfather of the Boyd Brothers started gathering and selling tree seeds and soon after began gathering native trees and shrubs and growing them in the nursery. There were few schools at that time in the Cumberland mountains, and little opportunity to attend, so his education was the result of his own efforts. His intimate and life-long association with trees and plants, together with his interest and accurate and correct knowledge, made him a leader in the growing of nursery stock. He died in 1924.

F. C. Boyd, the father of Boyd Brothers, followed in the footsteps of J. H. H. Boyd, advising and training his sons for the years ahead.

In 1930 he purchased a farm just outside the city limits of McMinnville, where Boyd Nursery Company operated until 1948—due to the expansion of McMinnville it was decided to move the nursery five miles farther out, on Highway 55-A, and the old farm is being sub-divided into building lots. A larger farm of new land was purchased where the expansion program could go forward.

The excellent growing conditions and our increased acreage enable us to offer this season the finest and most complete assortment of nursery stock we have ever had.

In 1948 F. C. Boyd decided to turn the active operation over to his sons, who are trying their best to carry on the work that their father and grandfather has developed.

We have many customers over the country that have been sending us their orders from year to year, and we are proud of them, and trust we may add you to our growing list of pleased customers. Of course, our reputation depends on the class of plants we send out, and the service that we render.

All packing and shipping of orders is personally looked after by competent help; shipments are put up in the best possible manner, and stock is packed for long distance shipments.

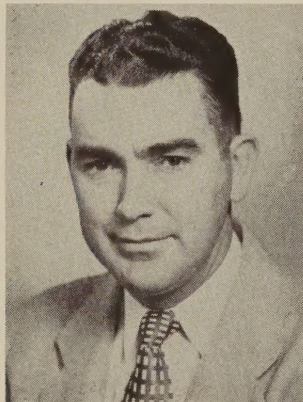

SHIPPING SEASON—We usually begin digging and shipping nursery stock October 10th and with slight interruptions during the bad weather we ship all winter up until May 1st.

To our old, new and prospective customers, the Boyd Nursery Company wishes you a very satisfactory and profitable nursery season.

Cordially yours,

ACER, "New" Crimson King Maple Plant Patent 735—

About ten years ago a fascinating purple or maroon-leaved Norway Maple tree was sent to America from Europe. It created the same sensation over here as it did in Europe. Several specimens were propagated and planted along the East Coast as well as on the Pacific Coast for observation. The results have been most gratifying. It proved perfectly hardy and happy where Maples grew and it retained its magnificent leaf color throughout the entire summer. The effect is not unlike that of the Copper Beech, but in addition, the tips of the branches and the young foliage are of a lighter shade and glisten brilliantly in the sun. One would think the tree was in bloom. Here truly is a rare thing in trees, a superb plant for lawn, small or large; street trees or specimen for contrast among other trees.

FLOWERING PEACH TREES****DOUBLE FLOWERING PEACHES**

We are pleased to offer to our customers some new varieties of Flowering Peaches, which were secured from other sections of the U. S. A. and they have been tested and found to be very promising to the Flowering Peach Tree family.

Peppermint Flowering Peach. This is really a beauty. Two-tone in every respect. Moderately double, flowers white marked with red stripes.

Red Leaf Peach. This new fruiting and flowering Peach has been a sales builder for catalog and mail order houses. Its merits include beautiful red foliage, as well as a good fruiting peach.

Double Red Flowering Peach. The old favorite in Flowering Peaches. It produces beautiful double red flowers.

Double White Flowering Peach. Another very fine flowering Peach, with its double white flowers.

CARYOPTERIS, Blue Mist

This charming low growing shrub is a very real contribution to the meager list of summer and fall flowering shrubs. It is covered from August till autumn frost with numerous clusters of powdery blue fringed flowers. This shrub grows about 18 to 24 inches tall and is perfectly rounded, making a small mound about two feet in diameter. The foliage is lanceolate and slightly toothed and silvery green in color. A truly worth-while plant for the flower border as well as for in front of the shrubbery border. Perfectly hardy.

NATIVE EVERGREENS

Inquiries for small, lining out evergreens are still coming in, so we list for your convenience a variety of seedling evergreens that our collectors can do a good job in collecting. These are nice baby seedlings and will be gathered only on damp days, when the weather is suitable for collecting. We suggest shipping evergreen seedlings via express. Our evergreen seedlings are all packed in damp moss.
